Managing the past, present, and future with MIP.

The Ponca Tribe of Nebraska serves Social and Cultural Services across Nebraska, Iowa, and South Dakota. Managing Tribal Council expenses without a fund accounting software became very difficult, with a lot of back end work. Through conversations, MIP was known to be the solution for other Tribal Nations.

With having a seasoned staff of 20+ years, change was not welcomed easily however, once they became familiar with the system they became very thankful. The process became simplified, as well as a time saver; allowing Accounts Payable's bi-weekly processing to become streamlined from two staff members to one.
